# STREAM OR SHOOT?

The studio is available as a standalone streaming solution with a full support team to manage your **live broadcast**. Integrating with any streaming platform, additional options include audience interactivity, video playback, bespoke streaming web pages and full viewer analytics.

Whether you'd prefer a fully pre-recorded stream, or some **pre-recorded content** to feature alongside your live event, our range of 4K cameras, professional lighting and Autocue within our studio provides everything you'll need. Our experienced crew also will direct, shoot and edit when required.

The studio packaged with a full lighting and sound rig, 4K cameras, optional vision mixing and Autocue.

The studio has a fast hard-wired internet connection for reliable streaming and additional guest wifi network.

The 6m wide stage comes complete with a selection of lecterns and stage furniture which also accommodates.

Full hospitality comes as standard with tea and coffee facilities plus private use of a fridge and microwave.

The studio is conveniently located in central Milton Keynes, close to the train station and with ample free parking.

**IF YOU HAVE
